

Item # _____

Model 350 Series Vacuum Package Machines

- Model 350 One 17" seal bar
- Model 350D Two 17" seal bars

Model 350

Safety and Convenience Features

Berkel Models 350 and 350D are reliable tabletop vacuum package machines designed to meet most mid- to high-volume foodservice portion control, product storage and food retail needs. The units offer a spacious stainless steel chamber, powerful, high quality pump and single 17" (double on 350D) seal bar providing a high integrity double seal with electric cut-off. Both models offer an anaerobic gas flush to maintain product color in the vacuum package, extend shelf life and/or to provide a pillow-pack seal to protect the product. The units are simple to operate and maintain.

Standard Features

- ▶ Tabletop models with a stainless steel housing and single 18" (457 mm) x 18" (457 mm) x 6-1/2" (165 mm) chamber
- ▶ Model 350 includes a single 17" (425 mm) seal bar; Model 350D includes two 17" (425 mm) seal bars; provide high integrity double sealing with electric cut-off
- ▶ Powerful, high quality 21 m³/h Busch pump and vacuum dial gauge
- ▶ 1-speed, 1-1/4 HP motor, totally enclosed, permanently lubricated ball bearings, thermally protected
- ▶ Model 350 furnished in 115/60/1, 14.2 amp, AC, ETL listed; Model 350D furnished in 115/60/1, 20.0 amp, AC, ETL listed
- ▶ Vacuum intervals of 1 to 99 seconds
- ▶ Gas flush for the addition of an anaerobic gas mixture and/or pillow-pack seal
- ▶ Simple to operate electronic, touch pad controls with nine storable programs
- ▶ Attached 6-foot, flexible, 3-wire cord and plug for grounded receptacle
