

# CHICOPEE® FOODSERVICE QUIX® CLEANING & SANITIZING TOWELS

## Just Add Water

Quix® pretreated towels are perfect for foodservice cleaning and sanitizing.

Simply immerse the towel into the specified amount of tap water and watch as the solution transfers from the towel to the water.

There are no complicated instructions, which often lead to incorrect mixtures.

By making it easy to consistently achieve the proper sanitizing strength every time, you ensure your establishment maintains the highest standards of cleanliness.

## Chicopee + Foodservice = Pure Chemistry.

- + Quix® Plus Red – One case creates 72 gallons of EPA approved food-contact sanitizer just by adding tap water.
- + Quix® Blue – One case creates 144 gallons of grease cutting multipurpose cleaner.
- + Quix® Cleaning and Sanitizing system is ideal where the handling of highly concentrated chemicals is impractical or not desired.

# CHICOPEE® QUIX® CLEANING & SANITIZING TOWELS

Create a cleaning or sanitizing solution in three easy steps:

1. Measure the specified amount of water into a bucket.
2. Add the towel and squeeze to activate the solution.
3. Watch as the towel color transfers into the water.

## An Effective Solution Every Mix, Every Time

### + Quix® Plus Sanitizing Towel

Add one towel to one gallon of water to create a 200 PPM sanitizing solution for use on food contact surfaces.

### + Quix® Cleaning & Sanitizing Towel

Add one towel to one pint of water to create a cleaning and sanitizing solution for use on non-food contact surfaces.

### + Quix® Multipurpose Cleaning Towel

Add one towel to one gallon of water to create a grease cutting and cleaning solution.
